HEDGEHOG STREET

CITY OF WILDLIFE

Dear Neighbour,

Have you heard of hedgehog highways? They're small gaps in or under garden fences to allow hedgehogs to move around. Hedgehogs can thrive in gardens and these 13cm x 13cm square gaps give them access.

This summer, there's a competition to find Britain's Biggest Hedgehog Street – the most gardens connected by hedgehog highways in one street. This has been set up by Hedgehog Street, a joint campaign by The British Hedgehog Preservation Society and People's Trust for Endangered Species.

Can you help?

I've made a highway and if we all do the same along our street, we'll be in with a chance of being the biggest Hedgehog Street in Britain!

- 1) Create a 13cm x 13cm square gap either through your fence using a saw, or by digging a channel underneath.
- 2) Register your hedgehog highway here
- 3) We can submit our street entry and find more info and tips here

Thank you for helping hedgehogs!

Best wishes,
